A PETITION FOR THE OKLAHOMA HEALTH FREEDOM ACT

We, the people of Oklahoma, do hereby re-assert our desire to keep all of our current health freedoms as of 01/01/03. We feel that all safe, complementary and alternative health care practices should remain as a matter of individual choice through a free and open market. We urge the legislature to enact the Oklahoma Health Freedom Act to continue to allow and to protect unfettered public access to freely practiced complementary and alternative health care services as of January 1st, 2003, until said professions pose a proven hazard sufficient to warrant regulation.
