

To the Honorable Public Servants:
The Governor of the State of Oklahoma,
The Speaker of the House,
The Senate President Pro tem,
All Senators and Representatives,

As a citizen of the State of Oklahoma I urge you to support passage of the **Oklahoma Health Freedom Act** to ensure my freedom of access to and practice thereof all safe, natural healing arts in Oklahoma. We the people of the State of Oklahoma have originally through a public referendum of over forty thousand (40,000) voters and most recently again through lobbying efforts in 1994 changed the medical licensing law (Title 59) to keep these arts free from any restriction by the allopathic medical board. Since 1994 other small groups have tried to undermine the public's will and freedom by attempting restrictive legislation of safe natural healing arts.

The **Oklahoma Health Freedom Act** will preserve the will of the people by preventing unnecessary restriction by any other agency, corporation, or individual party. Thank you for your support in this important issue.

Sincerely,
